

**#WATCH** | Delhi: On the sidelines of India Bio-Energy Conference (IBEC) 2026, Lt Col Monish Ahuja (Retd), Co-Chair of the National Committee on Bio-Energy under the Trade Promotion Council of India (TPCI), says, "The TPCI has formed the Bioenergy Committee that itself showcases the importance for this sector, for India and the world at large. India is leading the world on bioenergy with the Global Biofuel Alliance... Utilization of bio-degradable farm agriculture residue... is today going to be done... It is a vision of the government, prime minister for 'Atmanirbharta'... Capital requirement for this sector... we still have multiple actions of government dispersed... Ministry of Agriculture, Ministry of Housing and Urban Development, Ministry of Petroleum... new and renewable energy, rural development, finance ministry... But where is one single port of call? I think that is a requirement either a nodal ministry or an independent department..." (12.06)
